

Silicone Tiny Open Cup

Silicone Baby Cups for 6-12 Months Infants Tiny Open Cups Led Weaning Training Cups for Baby Drinking Cups

Product Details Description

01

Scientific Design to Help Baby Learning Drinking :

Our silicone tiny open cup is perfectly shaped and sized for little hands to get the hang of drinking from an open cup with ease and fun. Plus it feels great to the touch while ensuring a firm grip in little hands and in your hands too.

02

Baby Approved Size (125ml) :

This silicone training cup fits baby hands just right and gives your little one just the right amount of liquid for each small sip.

03

Made to Reduce Spills :

The cup's bottom is nicely weighted and textured to make sure it won't topple over easily. Yet, spills are still possible, but way less likely!

04

Tapered Opening :

Gradually narrowing from bottom to top, our cup allows liquid to flow right into little mouths instead of elsewhere or everywhere. Rest assured the rim goes extra gentle on sensitive gums and will also stand the test of continuous chewing.

05

Safe Gift For Baby :

Made of food grade silicone, our cup is free of BPA, PVC, lead and phthalates and is easy to clean as well. Dishwasher safety. Coming in uniquely cute colors, it's not just an essential for Baby Led Weaning, but also a great gift for your loved baby.
