Product Details Description

01

Safety Material :

Crafted from 100% food-grade silicone, Bangxing's Pacifier Case is free of BPA, PVC, and phthalates. Unlike stainless steel zipper holders, our silicone material is gentle on baby's skin with no risk of harm to the baby. The all-silicone design is not only safe but also offers long-lasting durability.

02

Large Enough for Multiple Pacifiers :

Bangxing's Pacifier Holder is big enough to store up to two pacifiers, a pacifier chain, and teething toys; and once baby has grown up, you can use it for small essentials like lip balm, hair ties, or earbuds. Keep your baby's gear organized while on the move. The silicone button clasp is sturdy and dependable, ensuring nothing goes missing.

03

Easy to Carry :

With a built-in hanging strap, it attaches effortlessly to diaper bags, hand-bags, strollers, and car seats, putting your pacifiers within reach. Embrace hands-free parenting and stay chic on-the-go with this compact and adaptable case.

04

Hassle-Free Cleaning :

Our pacifier holder features a easy-clean surface that keeps your baby's pacifiers clean no matter where you go. Even if it takes a tumble, your pacifier will remain unsoiled. Cleaning is a breeze – a simple wash with soap and water or a quick run in the dishwasher's top rack is all it needs between uses.
