

Silicone Stacker Teether Toy

Encourage sensory play with our dinosaur silicone stacker teether toy. Featuring six BPA-free, food-grade silicone rings, it promotes fine motor skills, hand-eye coordination, and gum relief during teething. Safe, fun, and CE/CPC certified,perfect for curious little hands and growing smiles.

Product Details Description

01 Versatile Teething Toy :

Bangxing's baby teething rings are not only great for stacking games but also serve as a safe and soft teether for your baby to chew on. Protect the gums.

02 Premium Quality :

Bangxing's 6-piece stacking ring toys are made of high-quality food-grade silicone, without any fillers or off-odors. These soft baby toys are BPA and Phthalate-free, making them safe for your child to play with and bite freely.

03 Educational Development :

Our stacking toys are designed to help develop fine and gross motor skills in babies. As they play and learn to stack the rings, they also develop their problem-solving and hand-eye coordination skills, which will be useful for more complex tasks like writing.

04 Unique Design :

Our stacking toys come in 6 pieces with different shapes and sizes ,There are dinosaur shapes that children like and various different element shapes to satisfy the curiosity of infants. Rich color designs are conducive to the visual exercise of babies.
